This is news. Mr. Bush must have been studying the poems of that peerless American William Cullen Bryant.

If on the other hand the price is even, then there is a chance for non-Union plumbers to get hold of enough material to smash the trust by competition .-

It is to be hoped that the Advertiser has not under contemplation a new stock company to put on the already overloaded market.

John Wise says, If the Democratic anti-Imperial policy prevails the Philippines and Cuba will be free and their sugars will not be in competition with the Hawaiian product. Will our Democratic friends please explain whether free trade is not one of the foundation principles of the Democratic party. Free trade with Cuba, the Philippines and every other sugar producing country of the world. If the Democratic party is true to its principles it will flood the American market with foreign sugars in direct competition with the Hawaiian product.

## **North Pole Expedition**

New York, Oct. 12.-Still another Am erican attempt is to be made upon the WALLACE R. FARRINGTON .. Editor North Pole, and the announcement is made that it is to be carried through if it takes \$1,000,000 to accomplish it. Evelyn B. Baldwin, an experienced Arctic explorer, is to be the leader of this expedition, and its chief backer is announcement of this undertaking was made at a meeting of the Arielic Club this evening.

The Baldwin-Ziegler expedition will not make its attempt upon the pole hefore the summer of 1901 but in the meantime plans will be perfected for its equipment, and ships purchased. Vessis especially adapted to Arctic work may be built for the expedition as in the case of English and German Arctic explorers, which craft are under construction.

#### FALSE CHINESE RUMORS

Washington, Oct. 11.-Minister Wu was one of Secretary Hay's early callers today. He had no late advices from China, but came to learn the course of this Government on the French proposition. He expressed considerable ap-FOR DELEGATE TO CONGRESS, prehension over the press reports that a large military expedition was moving on Pao-ting-fu. He looks upon this as likely to cause serious complications and a renewal of agitation among the Chinese. He says that the reports of serious Boxer uprisings in the South of China are not correct and are set affoat with a view to creating the impression on this side of the water than grave dangers exist which call for a military campaign by the allies. The best evidence of this, he says, is the fact that there are no Boxers in the south of China. The Minister feels certain that Li Hung Chang has arrived at Peking

Nothing has been heard from Mr. Conger for a day or two. It appears that it was an erroneous assumption that the Minister had submitted to the State Department a list of Chinese officials who should be punished. He did supply the department with a copy of the imperial edict in which a number of officials were mentioned, but made no proscriptions himself, although he did express the opinion that other Chinese besides those named were fit subpects for punishment.

With th ereply made yesterday to the French note respecting China, the State Department has assumed again an attitude of waiting. The text of the note is to be made public here after the lapse of the usual period allowed by diplomatic custom, which probably will be tomorrow morning.

After the visit to the White House Secretary Long insisted that a physician be detailed to return to Boston with him. and Admiral Sampson finally consented that this be done. Dr. Pleadwell was detailed and accompanied the Admiral.

> The friends of Admiral Sampson are worried over his apparent breakdown. He is one of the younger of the Rear Admirals and will not retire for four or five years.
